

# GENUINE UK BLACK

## TARGET MARKET

Luxury Packaging

**Genuine UK Black harnesses technology, science and skill, resulting in a unique black paper with a strong environmental pedigree.**

By matching dyes, pigments and fibres, we've created a paper that, being non-carbon, lends itself perfectly to creative work incorporating metallic foil printing. It is also FSC certified, and with 40 per cent of its composition being post-consumer waste, makes it an environmentally conscious choice.
